

CASHBOOK

**Job Title:**

Senior Front-End Developer.

Job Location:

Limerick, Ireland.

Job Description:

Cashbook is a proven Fintech Company based in Limerick. Our Cash Management software solution has revolutionized the automation of high-volume financial transactions for clients. Cashbook develop Cash Application automation software for working capital optimization and reconciliation. We have led implementations of our software solutions in over 25 countries.

Cashbook functionality includes Cash Application, Accounts Payable, Bank Reconciliation, Deductions and Data Extraction. We are the only software solution that combines AR, AP and Bank Rec automation in one single package. This is an exciting time for our business and the opportunity has arisen to recruit an experienced JavaScript Developer to support our growth aspirations.

The ideal candidate will be responsible for designing, developing, testing, and debugging web application for the company. Using JavaScript, Angular, HTML, and CSS, this candidate will be able to translate user and business needs into functional front-end design.

Length of Contract: Full-time/Permanent.

Responsibilities:

- Designing, developing, and testing UI for our new web application.
- Build reusable code and libraries for future use.
- Accurately translate user and business needs into functional frontend code.

Qualifications:

- Bachelor's degree or equivalent in Computer Science.
- 7+ years' experience in front-end development.
- Familiarity using Scrum/Agile development methodologies.
- Strong Experience in building object-oriented web applications in JavaScript (4 to 5 years), Angular, Java, HTML5, CSS3.

Salary and Benefits:

- Salary: competitive - based on experience.
- Annual Leave - 25 days.
- Company Health Insurance.
